Figure 1 consists of two schematic diagrams, (a) and (b), illustrating the experimental setup. Diagram (a) shows a participant sitting at a table, looking at a screen. On the screen, there is a target (T) and a starting point (S). The participant's hand is positioned at S. Diagram (b) shows the participant's hand moving from S to T, with a dashed line indicating the path. The screen displays a target (T) and a starting point (S).

Figure 1 is a schematic diagram of the experimental setup. It shows a participant seated at a table, looking at a screen. The screen displays a sequence of stimuli: a fixation cross, a target stimulus, and a response button. The participant's hand is positioned over the response button. The diagram is labeled with '시각' (Vision) and '청각' (Hearing) indicating the sensory input channels.
